

Kia ora Dalefield families,

### Room 3 Surgery!

What a fantastic learning experience in the junior hub this week. As part of their inquiry, the children explored all the aspects of health care, keeping themselves well and learning what they need to do if injured. Fantastic role-play guys!

Keeping the patients warm and comfortable!

### New Students

A very warm welcome to Lucas Pullen (Room 2) and Abigail Crow (Room 3). We know you're going to love it here at Dalefield School!

Fantastic effort!

### Leadership Awards

Congratulations to Meg, Zane, Connie and Violet. These four students are the inaugural recipients of the Dalefield School Leadership awards. The four students have consistently displayed leadership skills and their award reflects this. We all celebrate your success.

A huge thank you too from the school, Zane, Connie and Violet for the organisation of today's wheels day. It was marvellous and so well organised. You can watch some of the day [here](#).

## Matharapa

Congratulations to the students who took part in this event today. Daniel, Anais and Tessa shared a great report about their experiences at today's assembly.

## Tracking and Trapping

Landon, Oliver and Henry reported back to the hub on Monday about last week's workshop. You can view their presentation [here](#).

### Keep those nasty critters away!

Nit treatments are funded on prescription - including dimethicone 4% and phenothrin preparations.

For children under 13 there would be no co-payment.

You may wish to contact a local medical centre or discuss with a pharmacist about the available options.
